

Mobile Library Service

The mobile library service is currently disrupted, due to our vehicle being unavailable.

Our team are working hard to support residents and are currently delivering a limited reservation collection and home delivery service instead.

If you need any assistance, please contact our friendly mobile library team on 01275 888 864 or mobile.library@n-somerset.gov.uk. You can also access eResources, make reservations and renew items at www.librarieswest.org.uk with your library card and PIN.

We know this service is important to our communities and apologise for the inconvenience.

Please be assured that we are committed to delivering this service, and we've secured funding for a replacement electric mobile library vehicle. We're hoping this will be on the road by the end of 2025.
